*(Registration No. Trust/05/2019)*

Welcome to the 8th International Conference on Multidisciplinary Perspectives on Sustainable Development in Science and Technology (ICMP-SDST 2026), to be held online on 7-8 February 2026. This international conference is a flagship academic event for both the Institute and the surrounding region, focusing on engineering sciences and emerging/next-generation technologies. It is being organized by MAA Shakumbhari Trust, Greater Noida, India, during 7-8 February 2026.

The conference aims to bring together researchers, industry professionals, academicians, scientists, engineers, policymakers, and students from across the globe to exchange knowledge, ideas, and recent advancements related to sustainable development in science and technology. Aim is to identify novel and fundamental advances in the fields of R&D & education and to bring together leading academicians, scientists, researchers to premier interdisciplinary forum to identify & honor the most recent innovations, trends, and solutions adopted in the fields.

The primary objectives of the conference are:

- To provide an international platform for sharing innovative research and best practices.
- To discuss scientific and technological solutions addressing global challenges related to environmental sustainability, energy, healthcare, infrastructure, and socio-economic development.
- To promote multidisciplinary research and collaboration among diverse fields such as engineering, sciences, management, humanities, and emerging technologies in alignment with sustainable development goals.

The conference will focus on frontier research topics in engineering sciences and emerging technologies. We cordially invite leading academicians, researchers, engineers, and scientists from relevant and allied disciplines worldwide to submit their original research papers and share their valuable experiences with the global research community.
